ACKNOWLEDGMENT:

I would like to express my heartfelt gratitude to all those who supported me throughout the development of this project. First and foremost, I am thankful to my instructor for their valuable guidance, constant encouragement, and constructive feedback, which helped me shape this website into its final form. I am also grateful to my peers and friends who provided suggestions and tested the features, ensuring a smoother user experience. Special thanks to my family for their continuous motivation and patience during this journey. Finally, I acknowledge the resources, tools, and technologies that played a vital role in bringing Blooming Petals to life. This project would not have been possible without the collective contribution of everyone who believed in me. I would like to express my heartfelt gratitude to all those who supported me throughout the development of this project. Ask-Me Mobile:

Project Certification:

Ask-Me Mobile

Introduction To Ask-Me Mobile:

Ask-Me Mobile is a trusted destination for a wide range of smartphones from leading global brands. We offer the latest models from popular names such as Samsung, Apple, Oppo, Vivo, and many others, all in one place. Our focus is to give customers genuine products, fair pricing, and helpful guidance so they can choose the mobile phone that best suits their needs.

At Ask-Me Mobile, quality, variety, and customer satisfaction come first.

Requirement Specification:

The Home Page should be created with proper sections, graphics and logo.

- A Menu should be created which would categorize all the information about the features provided in the Site For e.g. a Menu for Various Cell phones, a Menu for Features of Cell phones etc etc something like that.
- The information should be categorized according to the Brand names of Mobiles like if a User wants to see only Nokia Phones then he click on Some Nokia Link/button etc and he will see only That Brand phones and so on.
- A Brief summary of features of Individual phones should be displayed on the Web Page along with the Cell phone but detailed Features should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.

- A Comparison Web Page should also be there where there is Phone comparisons done with various models of same brand or various models of various brands.
- The Comparison information should be provided in Tabular format comparing the features of different phones.
- This information would be for 5 Phones of similar brands and 2 phones of different brands for 1month and then it will change so for the time being the Page should handle the above requirement.
- The Colour Schemes should be soothing, more of Pastel Colours can be chosen for the same.
- When a particular brand phones are being displayed the background image of the Web page should show the Logo of that brand for e.g. if Nokia Phones are being displayed then that page should have the Logo of NOKIA as the background image and the same in case of other Brands.
- There should be a "Contact Us" page which will have the Address of the Company which is as follows and the mail address which when clicked will invoke the local mail client from where they can send an email.
 - Address of the Company: A-65, ACME Co., Street no 12, New York
 - Phone Numbers: +001-28272300, 2466, 2469
 - Email Address: webmaster@cellinfo.com
- The information on the mobile phones and all can be picked up from the Sites of Nokia, Samsung etc.
- To avoid creation of html pages you can make use of layers, flash buttons and other components of Dreamweaver for creation of pages.
- The appearance and organization of the site will carry more chances of your selection for getting the contract so both the factors are important to be considered.

Here's the ACME team wishing you all the success and Best wishes for the project.

Hardware/ Software Requirements:

Hardware:

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

Software:

[Either or Combination as per Course/Sem]

- Notepad/HTML editor/Coffee Cup
- Angular / Angular JS / React / Bootstrap
 - Dreamweaver / Figma
- MS IE / Chrome / Fire Fox / Netscape /MS Edge.

SAMSUNG

Galaxy S21

120Hz Display 5G 64MP Camera

Flagship performance without breaking the bank. The S21 still holds up amazingly well with its smooth display and versatile camera system.

[View Details](#) [Compare](#)

APPLE

iPhone 15

A16 Chip 48MP USB-C

Finally, Apple added USB-C! But that's not all—the camera upgrades and Dynamic Island make this a solid choice for iOS fans.

★★★★★ 5.0

Samsung Galaxy S21

Owned for 8 months

A Solid Flagship That Still Holds Up

Look, I'll be straight with you—I almost went for the S22, but after watching countless reviews and comparing specs, I realized the S21 gave me 90% of what the S22 offers for \$200 less. And honestly? I couldn't be happier with that decision.

The 120Hz display is gorgeous. I thought I wouldn't care about refresh rates, but now when I pick up my old phone, it feels like watching a slideshow. Gaming on this thing is smooth as butter, and scrolling through Instagram is just... *chef's kiss*.

Camera-wise, it's not going to beat a Pixel in low-light situations—let's be real. But during the day? Absolutely stunning shots. The 64MP telephoto lens is actually useful, unlike some gimmicky high-MP sensors on cheaper phones.

What I Love

- ✓ Display quality is absolutely top-tier
- ✓ Performance handles everything I throw at it
- ✓ Compact size fits perfectly in my hand
- ✓ Wireless charging is fast
- ✓ Water resistance gave me peace of mind

Could Be Better

- ✗ Battery life is just okay for heavy users
- ✗ No microSD card slot hurts
- ✗ Gets warm during intensive gaming
- ✗ No charger in the box

Bottom Line: If you're looking for a flagship experience without paying flagship prices, this is it. Yes, the battery could be better, but I'm near a charger often enough that it's not a dealbreaker.
