

One Plus 9

The OnePlus 9 is a flagship Android smartphone introduced in 2021 that focuses on strong performance and a smooth user experience. It has a 6.55-inch Fluid AMOLED display with a 120 Hz refresh rate and HDR10+ for bright, vivid visuals. Under the hood it runs on the Qualcomm Snapdragon 888 chipset with up to 12 GB of RAM and up to 256 GB of fast UFS 3.1 storage for quick app loading and multitasking. The rear camera system includes a 48 MP main sensor, a 50 MP ultra-wide lens, and a 2 MP depth sensor, and it delivers up to 8K video recording.

Feature	Detailed Description
Display	6.55-inch Fluid AMOLED panel with 1080×2400 (FHD+) resolution and a 120 Hz refresh rate for smooth motion in scrolling and gaming. It supports HDR10+ and vibrant color profiles, and the screen is protected by Corning Gorilla Glass for better scratch resistance.
Build & Design	Slim body with a glass front and back and aluminum frame. It has a modern look and feel with a balanced weight around ~183-192 g that's comfortable to hold.
Processor & Performance	Powered by the Qualcomm Snapdragon 888 5 nm chipset with an octa-core CPU and Adreno 660 GPU . This is a flagship-class processor that delivers strong performance in apps, games, and multitasking.
Operating System & UI	Ships with Android 11 running OxygenOS on top, which offers a clean, responsive interface with customization features. It's upgradable to newer Android versions.
Memory & Storage	Comes with 8 GB or 12 GB RAM paired with 128 GB or 256 GB UFS 3.1 storage for fast app loading and smooth performance. There's no microSD card slot, so internal storage can't be expanded.
Rear Camera System	Triple-lens setup: • 48 MP main camera with PDAF and optical image stabilization for detailed photos • 50 MP ultra-wide lens for broader shots • 2 MP depth sensor to improve portrait effects. The system supports up to 8K video recording along with HDR, panorama, and gyro-EIS for steadier footage.
Front Camera	16 MP selfie camera with Electronic Image Stabilization (EIS), good for clear selfies and video calls with support for HDR and standard video recording.
Battery & Charging	4500 mAh battery that balances everyday use with performance. It supports 65 W Warp Charge fast charging that can go from low to full quickly with the included charger. Some regions also support 15 W wireless charging .
Connectivity	Comprehensive connectivity with 5G support , Wi-Fi 6 , Bluetooth 5.2 , NFC , GPS (multiple satellite systems) , and a USB-C 3.1 port for data and charging.

Security	Under-display optical fingerprint sensor for quick and secure unlocking, alongside face unlock using the front camera.
Audio & Extras	Stereo speakers for rich audio playback. Standard sensor suite includes accelerometer, gyro, proximity, compass, and ambient light sensors to support navigation and motion features.
Software Capabilities	OxygenOS brings features like customizable gestures, dark mode, and performance tools. The phone also benefits from software updates improving security and features over time.
Colors & Style	Available in finishes like Astral Black, Winter Mist, and Arctic Sky , giving users some style options.
