

# Pixel 6

The Google Pixel 6 is a well-rounded Android smartphone known for its clean software, strong camera performance and modern design. It has a 6.4-inch AMOLED display with smooth 90 Hz motion and 1080×2400 resolution, powered by Google's custom Tensor chip paired with 8 GB of RAM. The dual rear camera system features a 50 MP main sensor and a 12 MP ultrawide lens that capture vivid photos and 4K video, while an 8 MP front camera handles selfies and video calls.

| Category                           | Specification                                                                                                                                                                                                             |
