

Pixel 7

The Google Pixel 7 is a well-balanced flagship phone from Google that focuses on clean software, strong camera quality, and real-world performance without unnecessary extras. It has a bright 6.3-inch OLED display with a smooth 90 Hz refresh rate and is powered by Google's custom Tensor G2 chip, which brings better AI and machine learning features to everyday use. The camera setup includes a 50 MP main sensor and a 12 MP ultrawide, backed by Google's advanced computational photography for sharp photos and reliable video.
