

Samsung Z fold 4

The Samsung Galaxy Z Fold 4 is a premium foldable phone that doubles as a compact smartphone and a large-screen tablet in one. It opens to reveal a spacious 7.6-inch Dynamic AMOLED 2X display with a smooth 120 Hz refresh rate for immersive media and multitasking, and closes to a usable 6.2-inch external screen also at 120 Hz. Under the hood it runs on a Snapdragon 8+ Gen 1 chip with 12 GB of RAM and up to 1 TB of storage for fast performance and plenty of space for files. The triple rear camera system includes a 50 MP main sensor plus ultrawide and telephoto lenses, and Samsung's refined hinge and Armor Aluminum frame help keep it light and durable.
