

iPhone 12

The Apple iPhone 12 is a capable and well-rounded smartphone from Apple's 2020 lineup. It has a 6.1-inch Super Retina XDR OLED display that's bright and sharp, with strong contrast and HDR support. Inside it runs Apple's A14 Bionic chip, which was the company's first 5-nanometer processor and delivers smooth performance for everyday use, gaming, and photography. The phone has a dual 12 MP camera system with wide and ultrawide lenses that take great photos and video, and it supports 5G connectivity for faster mobile data speeds. It's built with a durable Ceramic Shield front and has IP68 water resistance, plus wireless charging and fast charging support.
